Thanks Brian
Not sure when Ed can get to this.
If Kim is good with it – which she is since she provided them – then OK with me.

Hi Ed, just following up on this. Wanted to make sure you are okay with us going forward with the FY 21 and FY 22 projected PFAS cost for OPP and the brief description provided (see attached). Let us know if you have questions.

Subject: OPP PFAS Cost

Hi Ed,

Thanks to Kim who provided an estimate for OPP's PFAS cost in FY 21 and FY 22 at Ex. 5 Deliberative Process (DP)
Ex. 5 Deliberative Process (DP)
Ex. 5 Deliberative Process (DP) Attached spreadsheet is what will be sent forward. Please let us know Monday morning, if you have any comments. Thank you!

The short description on what PFAS activities these lab FTE will be working on:

EPA's Analytical Chemistry Laboratory in Ft. Meade, is currently engaged in a number of efforts to investigate the reported presence of PFAS in pesticide containers. For example, we are conducting testing of products identified as containing PFAS by external parties, partnering with state laboratories to share and test samples of pesticide products, engaged in method development for those and other pesticide products, based on their unique formulation characteristics, as well as looking into the rate of leaching of PFAS from fluorinated High Density Polyethylene (HDPE) containers using various types of solvents.
